

LITHA

June 19-21

THE SUMMER SOLSTICE

Litha occurs during the Summer Solstice between June 19-22 and marks the longest day of the year in the northern hemisphere.

LITHA & THE WHEEL OF THE YEAR

Litha is a good time to align yourself with the powerful energies of the sun and summertime. Everything is growing and expanding and now is the time to expand your ideas, business, goals or desires. And like all Wheel of the Year Sabbats, Litha is an opportunity to show gratitude for all that you have and thank Mother Earth for her bounty.

A TIME FOR CONNECTION

Litha is a time to celebrate the abundance and beauty of Mother Earth. Flowers are in bloom and gardens are producing fresh vegetables and fruits. Gather family and friends to celebrate the longest day of the year and coming harvest season.

JUNE IS THE
MEAD MOON

THY
ETERNAL SUMMER
SHALL NOT FADE.
