

OCTOBER

THE HARVEST SEASON

As the days grow shorter and the nights longer, October represents a waning balance between light and darkness. Embrace the dual nature of this month and seek balance in your life. Meditate on your goals and aspirations, and prepare for the quiet winter months ahead.

CELEBRATING SAMHAIN

Samhain is the first sabbat holiday in the Wheel of the year. Celebrated on October 31st, Samhain was believed to be a time for the earth to rest before the start of another growing season. Samhain marks the midpoint between the Autumnal Equinox and the Winter Solstice. This balance of light and dark helps keep us rooted to love, while encouraging hope for the new seasons of life ahead.

THE HARVEST MOON

Ancient Celts referred to the October full moon as the Harvest Moon, Seed Fall Moon, or Hunter's Moon. Aligning with the celebration of Samhain, October is a good time to honor loved ones who have passed on. It is also a good time to do spiritual and physical house cleaning, releasing the things that will no longer serve you in the coming year.

LIBRA TO SCORPIO

October is the month of transition from Libra (September 23rd - October 22nd) to Scorpio (October 23rd - November 21st). We experience a shift from harmony-seeking Libra to the intense and transformative energy of Scorpio. Scorpio, ruled by Pluto and associated with water, brings depth, passion, and a desire for profound change. It's a time when we delve into our emotions, seek truth, and explore the mysteries of life and death.
